

SRPG Gear MV/MZ Terms of Use

SRPG Gear MV/MZ is an RPG toolkit for RPG Tools MV/MZ.

These are materials for creating a simulation RPG (Tactical Battle System). The material consists of the main plug-in (SRPG_core), extension plug-ins by several creators, and sample games.

Common Terms of Use for Plug-ins and Samples

The service is available free of charge.

Copyrights are not waived. The copyright of the material belongs to the respective copyright holders.

Please give credit to the following when you use the game: Ariake Takumi (有明タクミ), Dr.Q, RyanBram (SRPG team), Anchovy (アンチョビ), Shrimp (エビ), Tsumio, and Shoukang.

No usage report is required, but the author will be pleased if you do.

Plug-in Terms of Use

SRPG_core.js/SRPG_core_MZ.js is released under the MIT License.

There are no restrictions on the scope of use.

It can be used for free games as well as paid works and adult-oriented works. Modification and redistribution are also possible under the MIT License.

The bundled extension plug-ins are also released under the MIT license in principle, but please check the license of each plug-in for details.

Sample Game Terms of Use

In principle, the MIT License shall apply.

You are free to open the file in an editor, duplicate the contents, etc.

Redistribution is allowed, but only free of charge.

If you modify and redistribute the sample game, please clearly state that it is based on this sample game.

Please let us know when you redistribute the materials, regardless of whether or not they have been modified.

Other

Basically, there are almost no restrictions, but any behavior unbecoming of a creative person is prohibited. Example:

- Blatant self-created statements
- Selling this material as is
- Use of the work for the purpose of slander, discrimination, criminal acts, or other acts deemed inappropriate

Disclaimer

The creator shall not be liable for any loss, damage, or dispute with a third party resulting from the use of this material.

In addition, as a standard rule, you are responsible for dealing with plugin conflicts yourself.
